Getting to know your new home

Where is Jersey?

Just 14 miles (20km) from the west coast of France and 85 miles (137km) from the south coast of England, you'll find the island of Jersey.

The island is easy to get to from the UK and mainland Europe. There are up to 40 daily flights in and out of the island.

What is a Crown Dependency?

Jersey is a Crown Dependency which means it's not part of the UK but a self-governing possession of The Crown.

Jersey has been a Crown Dependency since 1290 and has its own democratically elected parliament, government, tax system, and laws. However, the island does have a close historic relationship with France and the UK and relies on the UK for defence and international relations. It is also part of the Common Travel Area (CTA) which allows British citizens to move freely between the UK, Republic of Ireland, and the Channel Islands without a passport.

A unique Anglo-French culture

Not entirely British and not entirely French, Jersey combines the feeling of being abroad with the comforting familiarities of Britain.

Jersey has special historical, social, cultural, economic, and constitutional links with both Britain and France. These have been formed and maintained over hundreds of years, giving the island its proud and unique Anglo-French culture.

When you arrive in Jersey, British influences are clear to see in the island's infrastructure, language, currency, and economy. Meanwhile, the influence of French culture can be seen in Islanders' French surnames, French road names, the native Jèrriais language (also known as Jersey French) and the Norman-influenced legal system.

An unspoilt landscape

For a small island, Jersey packs in some vastly diverse scenic landscapes.

From white sandy beaches to dramatic cliff-top views and caves, from lush green woodlands to rolling farmland, and from modern marinas to historic fishing harbours – there's a piece of paradise to suit you. And the best part – 48 miles of unspoilt breath-taking coastline are never more than minutes from your door!

Language and currency

We speak English and use British Pounds (GBP), but with a Jersey twist.

Jersey may be located closer to France, but the island's main language is English. Other languages spoken include Portuguese, Polish and French, and some people even still speak the local dialect, Jèrriais.

The British pound is the main currency used in Jersey and accepted island wide. The local Jersey pound, which is of the same value, is also used.

Jersey is also favourably positioned for digital connectivity with one of the fastest broadband speeds in the world and fibre connectivity to every home and office across the island, cementing the island's growing reputation as a digital front-runner.

History

Delve back hundreds and thousands of years into Jersey's history and you'll be certain to unearth something that surprises you. There are so many extraordinary stories to be uncovered.

Did you know that Jersey has some of the world's best-preserved ancient burial sites which are older than the pyramids built by the island's oldest inhabitants? Or that New Jersey in the USA was named after the Isle of Jersey? The island was also occupied by the Nazis during the Second World War. Thousands of years of history have shaped this unique island into what it is today.

Climate

Jersey's southerly position and sheltered proximity in the Bay of St Malo means islanders enjoy warm summers and mild winters.

As well as the temperate weather, Jersey also boasts the highest number of sunshine hours in the British Isles. The sea temperature in the summer can reach 18 degrees C!

Winters are also mild meaning you'll often see sea swimmers all year round!

Safety and security

Jersey is a place where you and your family can live safely, confidently, peacefully, and privately.

Jersey has one of the lowest crime rates in the British Isles with a crime rate of around half that of England. As well as having its own dedicated police force, Jersey has a particularly strong community safety network across the 12 parishes. Each parish has an 'honorary' police force, as well as friendly and trustworthy local communities who look out for one another.

Jersey's excellent safety and security offers you peace of mind to live a safe and comfortable lifestyle.

Housing

From modern water-side apartments to quaint 19th century fishing cottages, and from grand granite mansions to exquisite Victorian terraces, you're sure to find a home you will love in Jersey.

Where you live depends on your 'residential and employment status' which we cover in more detail below. It also hinges on your budget, lifestyle, and circumstances. It's a huge plus that council tax ('rates') and income tax are lower than in the UK; although, property can be more than in many parts of the UK.

Healthcare

Jersey offers extensive and quality healthcare services, with private and state supported options available.

Jersey doesn't have the NHS, healthcare services are instead delivered by 'Health and Community Services' (HCS).

For the first 6 months, health care services will be provided at an added cost. Click [here](#) to find out more.

Do you have any special healthcare needs or an existing healthcare condition? If you do, we recommend you look into the support available to you in Jersey before you move.

Maternity and starting a family

An average of 912 babies were born each year in Jersey between 2017 and 2021. The antenatal clinic and labour ward are based at Jersey General Hospital.

There is also a Special Care Baby Unit (SCBU) in the Maternity Unit.

Emergency treatment

We hope that you never need any emergency treatment, but if you do, it's provided free of charge in Jersey General Hospital's Emergency Department. The Emergency Department is open 24 hours a day, 7 days a week, and you don't need an appointment. To get an ambulance, dial 999, just as you would in the UK. If you need to see a doctor but it isn't an emergency, you can see an out-of-hours GP.

Education

We all want the very best for our children. And we understand that moving your child or children to a new school in another country is a big and important decision.

The quality of education and care in Jersey's schools is exceptional. This can be seen in the island's consistently high exam results. Jersey provides a variety of both public and private schools across the island
